STUDENT GOVERNMENT

John Wood offers a vibrant Student Government Association (SGA) with opportunities for student leaders to make a difference in the College's district and beyond.

Trail Blazer Scholars will be at the heart of SGA, planning activities for the student body and being a voice for students on campus and throughout the state.

When JWCC SGA leaders transfer to four-year universities, they bring practical knowledge and wisdom that translate into successful careers and valuable personal and professional networks.

TRANSFERABILITY

John Wood students have successfully transferred to more than 100 colleges and universities nationwide.

Students who have identified their transfer institution work with JWCC academic advisors to ensure all courses match with the school to which they plan to transfer. Those who are uncertain of a career path or transfer institution work with academic advisors to identify a career pathway and take general education courses that transfer to four-year schools.
